Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A user planning home decor, a party, or jewelry within a fixed budget.	Plan spending and find suitable products/services within my budget.	Many choices, prices, and platforms are hard to compare.	Manual comparison and budget allocation take time.	Confused and worried about overspending or choosing unsuitable options.
